MEMORIAL DAY
PLANS SHAPED
BY THE LEGION

General Observance of May 30
Is Planned by Bismarck
Organizations

PARADE WILL BE HELD

Parade in Afternoon of May 30
To be Followed by Exercises
at Auditorium

A general observance of Memorial Day, Tuesday, May 30, is planned in Bismarck.

The Memorial Day committee invites all military and civic organizations in Bismarck to participate in the parade and exercises to be held on that day. The arrangements are in charge of Lloyd Spetz Post, American Legion, which will have the co-operation of other organizations.

In the morning of May 30 the graves of the soldier dead will be decorated in both cemeteries—veterans of the Civil war, Spanish-American war and the World War. Exercises will be held at the Missouri river to commemorate the valor of the sailor dead of the nation.

In the afternoon there will be a parade at 1:45 p. m. led by the band, with other organizations in line as follows, Company "A," North Dakota National Guard, American Legion, Spanish War Veterans, Grand Army of the Republic, Red Cross nurses, fraternal and civic organizations. The parade will end at the auditorium where Memorial day exercises will be held. It is planned to have a patriotic pageant at the auditorium and a Memorial Day address.

The graves of the soldier dead will be decorated by the different committees of the Women's Relief Corps, War Mothers and American Legion Auxiliary, and flowers will be cast upon the water for those that died at sea.

CONTRACT FOR
BRIDGE ROAD
IS SIGNED UP

Plans for Completion of Bridge
Work Are Getting Under
Way

Another step has been taken in the work of making the Missouri river bridge available for use.

Contracts have been signed by the state highway commission and the Morton county commissioners binding the agreement to put in an earthen fill on the west side of the river and build a gravel road to Mandan.

Plans and specifications are to be drawn up immediately by the state highway commission. They will be forwarded to the United States Bureau of Roads, St. Paul office, and probably from there to Washington. The Morton county board will advertise for bids to be opened at the Morton county courthouse June 15.

The state emergency commission has made available \$25,000 from the highway commission funds to be used in building the road. The federal government will pay half the cost and Morton county one-sixth.

The plan calls for a concrete road on the west side. With this contract let and workmen pouring concrete on the bridge for the roadway it looks as if the bridge will be in use by the middle of the summer.

BISMARCK IS
PAID \$1,354.40

Warrants have been made out by State Auditor Pindexter for payment of \$37,483.08 to fire departments of cities in the state, the money being realized from the 2 percent gross premium tax paid by foreign fire insurance companies. The payment to be made soon is for the year 1922, and is apportioned on the basis of fire insurance written in the various cities having recognized fire departments. The largest amounts go to the following cities: Fargo, \$6,278.97; Grand Forks, \$2,002.52; Bismarck, \$1,354.40; Minot, \$1,888.32; Devils Lake, \$1,068.50; Mandan, \$640.94; Dickinson, \$590.48; Jamestown, \$1,171.52.

FARGO AVIATOR
WINS LAWSUIT

Fargo, N. D., May 17.—Ed Axberg, former Fargo aviator, defendant in a \$15,000 damage suit, was favored in a verdict returned by a Clay county district court jury. Jacob Moe and Knut Lomsdalen brought suit against the aviator for damages, alleging that he was responsible for the deaths of Alice Moe and Clifford Lomsdalen, who were killed when a wagon tipped over as Axberg was making a landing following an exhibition flight.

A verdict of guilty was returned in the case of the State of Minnesota against Knut Holt, charged with being the father of an illegitimate child.

IN STUDENT SLAYING

This is Mrs. Bertie S. Cobb, 18-year-old widow of Beckham Cobb, student at A. and M. college, Stillwater, Okla., with her baby. Beckham Jr. The husband, a former soldier, was shot and killed, police declare by Earl E. Gordon, another government student at the same institution whose picture is inset. Gordon is 25. According to the story told by Gordon's attorney, Cobb told Gordon he was going to shoot him unless he got out of town, and when Cobb later announced that he was going to carry out his threat, Gordon shot first. Mrs. Cobb says Gordon had insulted her on the street and she had told her husband. Cobb's parents live in Birmingham, Ala.

ELEPHANT ON RAMPAGE SPREADS
TERROR THROUGH WIDE SECTION

"Tusko," Described as Largest
Elephant in Captivity, Breaks
Loose

IS FINALLY RECAPTURED

Tacoma, Wash., May 17.—"Tusko," described as the largest elephant in captivity, is reported in a special dispatch today as peacefully consuming his fodder at Bellingham, Wash., after an afternoon, night and morning of rampage that stretched for 30 miles from Sedro Wooley, Washington.

"Tusko," hurled his keeper, H. H. Hendrickson, 30 feet into the air. Several of Hendrickson's ribs were broken. "Tusko" proceeded through the streets of Sedro Wooley capsizing three automobiles and turning a dance into a riot. He then headed for the hills.

Flattened fences and orchards told the story and reports from excited farmers and loggers along the line of flight dated. At one logging camp Tusko uprooted three telephone poles. Looking out of an upper story window a farmer and his family gazed on the elephant's mighty back hunched in an unsuccessful attempt to overturn the entire structure. A barn proved less staunch and after breaking in "Tusko" ate his fill and then proceeded onward.

At Dart the several hundred pursuers were forced to halt and all spent the night in the woods, taking up the trail at daybreak yesterday. Later sauntering up to other elephants that had been included among his pursuers "Tusko" meekly permitted his recapture.

DEBATE GRANT
OF PRIVILEGE
TO ACCOUNTANTS

Proposed to Give Accountants
Of Other States Right to do
Business in N. D.

OPPOSED AT MEETING

Aftermath of Law Suit Re-
flected in Resolution
Presented

A resolution was introduced in the state board of accountancy yesterday by J. A. Cull, of Bishop, Brissman and company, providing that certified accountants of other states might practice in North Dakota without being licensed by the North Dakota board as provided by North Dakota laws. The resolution was opposed by Joseph Coghlan, a member of the board, who declared any such resolution to do business here the other states must be granted equal recognition to North Dakota accountants.

The board of accountancy discussed the matter with the state board of administration which has supervisory power over the accountancy board. No action was taken.

The resolution is an aftermath of the law suit instituted here when accountants for Bishop, Brissman and company were charged with violating the state law by not having complied with its provisions in doing work in the state. North Dakota accountants are opposing an effort to permit accountants of other states to have privileges in North Dakota which the North Dakota accountants do not enjoy in other states. The state board of accountancy was created to license accountants to do business in the state and to keep a supervisory power over them. They hold that any action tending to grant special privileges to accountants of other states is a blow at North Dakota accountants, whom they insist should be given preference in doing all public accounting work within the state, if they are qualified under the law. They hold the taxpayers money should be spent at home.

FRENCH SENT
U. S. "FEELER"

Action Taken Before Invitation
Issued

Washington, May 17.—French sources at Genoa, prior to issuance by the economic conference of an invitation to the United States to participate in the Hague meeting sent a "feeler" to develop the American attitude toward such participation. It was learned today.

The American reply, it was explained, was sympathetic in character but was not an acceptance although apparently construed at Genoa as forecasting participation by the United States.

FRANCE SEEKS
DEBT CONFAB

Paris, May 18. (By the A. P.)—The French government has informed the American war debt funding commission that it is ready to send a special mission to the United States to confer regarding the payment of the French debt.

HUNTINGTON IS

Minneapolis, May 17.—Charles R. Huntington, vice-president and general manager of the Minneapolis, St. Paul & Sault Ste. Marie railway, was elected president of the system to succeed Edmund Pennington who was elected chairman of the company, a newly created position. G. W. Webster, secretary, was elected vice-president to succeed Mr. Huntington.

HEAD OF ADVERTISING CLUBS OF THE
WORLD TO BRING MESSAGE HERE

Charles Henry Mackintosh, president of the Associated Advertising Clubs of the World, will bring a message to Bismarck Thursday night of importance and interest to every business man.

Mr. Mackintosh will speak at 8 p. m. at the Legion hall under auspices of the Town Criers club, which is affiliated with the A. A. C. of W.

The topic of Mr. Mackintosh will be "More Retail Sales." It is a message expressly for retailers and of interest to all business men, as Mr. Mackintosh will speak from the experience of having visited 100 cities in the United States in the last year. Any person could make money during the war on a rising market, Mr. Mackintosh says. The problem now is to readjust business to meet post-war conditions. He will tell of some methods which have been used by business men in solving post-war problems.

Because of the importance of the message the Town Criers club has invited every business man in the city and in neighboring towns to be present, and urges all business men of the city to invite their employees to be present. The meeting is for men and women.

PINCHOT GAINS
IN LATE COUNT
FOR GOVERNOR

His Nomination as Republican
Candidate for Governor in
Pennsylvania Predicted

PEPPER IS RENAMED

Senator Appointed to Fill Pen-
rose Vacancy Has Big Lead
In the Returns

Philadelphia, Pa., May 17.—Gifford Pinchot "has apparently won the Republican nomination for Governor on the face of unofficial returns," W. H. Baker, secretary of the state Republican committee declared in a statement issued this afternoon.

"Unless Allegheny county (which includes Pittsburgh) gives a larger majority than my advices indicate, then there is no doubt that Pinchot carries the state," the statement says. Returns from 6,518 districts out of 7,334 gave Alter a majority over Pinchot of 44,357.

ALTER LEAD CUT
Philadelphia, Pa., May 17.—Returns from 5,994 precincts out of 7,334 precincts in the state gave Attorney General George E. Alter for the Republican nomination for Governor at yesterday's primary a majority of 22,291 over Gifford Pinchot. Figures gave Alter 437,503 votes and Pinchot 405,212 votes.

Returns from 5,010 precincts for the Republican nomination for United States Senator to fill the unexpired Penrose term gave Senator George Wharton Pepper a majority of 100,419 votes over Congressman-at-large J. W. Burke.

The late figures showed a decrease in the Alter lead, which was large in returns from Philadelphia and Pittsburgh.

Pinchot Leads in Country
With more than half the state heard from, Attorney General George E. Alter was leading Gifford Pinchot by about 21,000.

Returns from 4,096 out of 7,334 districts in the state gave Alter 369,388 and Pinchot 388,274.

Pinchot was leading Alter outside of Philadelphia and Allegheny county, in which Pittsburgh is situated. The vote from 2,593 out of 5,188 districts outside of Philadelphia and Allegheny gave Alter, 112,413; Pinchot, 199,125.

All efforts in the campaign centered in efforts to get all the vote out in the fight between the independent and state organization factions of the party. Special attention was paid to the women's vote, which it was realized, might be the determining factor in the contest.

Pepper Leads Burke
For the Republican nomination for United States senator to fill the unexpired term of the late Senator Penrose, George Wharton Pepper of Philadelphia, present senator by appointment of the governor, is leading by a substantial majority over Congressman-at-large William J. Burke of Pittsburgh.

David A. Reed of Pittsburgh, Republican, was nominated for the unexpired term of the late Senator Knox and also the full term beginning next March.

No Democratic Opposition
James A. McSparran had no opposition for the Democratic nomination for governor. Samuel E. Shull had no opposition for the Democratic nomination for the unexpired Knox senatorial term, and for the full term beginning next March. Fred E. Karr also had no opposition for the Democratic nomination for the unexpired Penrose senatorial term.

RUSSIA AGREES
TO CONFERENCE

Genoa, May 17.—(By the A. P.)—Russia has accepted the proposal of the powers for the meeting at The Hague to discuss the Russian situation. It was announced this afternoon. In accepting the Russians propose certain modifications in the plan which will be discussed at meetings during the afternoon. The atmosphere was apparently more harmonious than that of yesterday.

DISABLED VETS
DELEGATES ARE
ELECTED HERE

James Rhud and Carl E. Knud-
ston to Represent Chapter
At Forks Convention

James Rhud and Carl E. Knudson were elected delegates to the State Convention of Disabled Veterans of the World War, which will be held at Grand Forks, on the 26th of May, at the meeting of the local chapter last evening. Oscar Selvig was elected as the representative of the local post of the State Executive Committee and as such member will be entitled to a vote at the state convention.

Ray V. Stair and Theodore Martell were elected as alternates to the state convention. Earl McElvain and C. Earl Jodel were elected as members of the executive committee of the local chapter, the other members being president Philip Elliot, Vice-President Ray V. Stair, and Secretary-Treasurer Carl E. Knudson.

The chapter decided to put on a benefit dance for the purpose of raising funds to send the delegates to the state convention. Mr. Jodel, who has leased the hall for one evening, and a committee consisting of Messrs. Jodel, Martell and Arnold were elected to arrange for the dance.

The chapter received an offer from the War Department of a moving picture film of actual scenes of fighting in France. This moving picture was one of a number of movies made by the War Department at great hazard to the photographers in order to preserve for history a true record of the warfare of the World War and of some of the engagements of the different combat divisions of the A. E. F. It is the plan of the local chapter to obtain this great war film and make arrangements with one of the local theaters for its presentation.

A committee was appointed to cooperate with the American Legion and other organizations of the city in observance of Memorial Day.

Mr. McClellan is engaged in the real estate business and formerly was a resident of Fargo.

BIG APARTMENT
HOUSE BURNED,
HUNTING BOMBS

Police Connect Fire With Action
Of Terrorists in Connection
With Labor Feud

CLAIM A CONFESSION

Police Assert Occupants of
"Death Car" Are Known
Through Women's Admission

POLICE SPREAD NET.
Chicago, May 17.—An army of police with orders to kill any suspicious person who failed to comply promptly with police orders was spread through Chicago today to combat what officials call attempts of convict labor leaders to rule the city through murder, fire and terrorism.

The city was said by police authorities to be in war terms "an occupied area" with every public building and a majority of the buildings under construction under guard to prevent carrying out of anonymous threats to burn the city in retaliation for the drive of law authorities against murders, bombing and fires believed to be part of a campaign of some labor leaders against the Landis building trades wage award.

A special guard was placed around the county jail when reports were received that a delivery of "Big Tim" Murphy, Fred Mader, Con Shea and other labor officials held there on murder charges was planned.

Chicago, May 17.—Police today searched for unexploded bombs believed to have been placed in a \$500,000 apartment building in North Chicago which was damaged to the extent of \$250,000 by fire last night which police say was started by terrorists in connection with the so-called labor war.

Another development on which authorities concentrated their efforts today was the confession said by police to have been obtained yesterday from Mrs. Margaret Miller, wife of John Miller, now under arrest as the alleged driver of the "death car" from which shots were fired killing two policemen early Wednesday in the labor feud.

Police connect the firing of the building with labor disorders through a man who warned two women in an adjoining building to escape before their building caught fire. One of these women barely escaped assault when she attempted to question the man. After kicking at her he ran down the steps shouting, "To Hell with the Landis Award," the wage decision opposed by the labor leaders in the feud. That the fire was set has been proved beyond doubt, police say. Police are said to have received a threat that "unless all labor men in custody were released by last Saturday fire would be started all over the city."

The other flames failed to develop.

Say Mrs. Miller Confesses
The questioning of Mrs. Miller, police say, brought a full confession from her in which the names of other occupants of the "death car" were given and it is substantiated by a previous confession said to have been obtained from her husband. Police said Mrs. Miller admitted caring for the occupants of the bandit car who were supposed to have been wounded by shots from the policemen's pistols. Mrs. Miller also admitted sitting in conference with labor leaders in which bombing and attacks were discussed, police said, and admitted knowing that explosives were kept in her home to be used by labor men in their fight against the Landis award.

A new attempt will be made today to obtain the release of the "big three."

17TH OF MAY IS
OBSERVED HERE

Norwegian Independence day is being observed today in many cities in the state.

A celebration will be held here tonight at the Trinity Lutheran church, under the auspices of the Young People's Society. Judge A. M. Christianson will deliver an address. The program includes musical numbers, a talk by Commissioner of Insurance S. A. Olesness and will close with singing of "America" by the audience.

London, May 17.—(By the A. P.)—The British cabinet has decided to defer to the wishes of the House of Commons and appoint a committee to inquire into the educational program on which the government was defeated by a narrow majority last night.

BROADCASTING STATION MAY BE INSTALLED

B. K. Skeels Probably to Put Bismarck on the Radio Map This Summer

Bismarck probably will have a radio broadcasting station before fall. B. K. Skeels, who installed the first radiophone in Bismarck, has plans under way for the establishment of a broadcasting station through which concerts, speeches, news reports, etc., could be transmitted throughout North Dakota, but particularly the Bismarck trade territory. Mr. Skeels now is making an investigation of the possibilities along this line.

Twenty-two different wireless sending stations in the United States have been heard over the radiophone Mr. Skeels has installed in his shop. The Knights of Columbus have installed a radiophone in St. Mary's auditorium. Many towns have installed broadcasting stations for their advertising value Mr. Skeels said. The other night Pine Bluff, Ark., was heard from with the announcement that the broadcasting station had been installed for the purpose of allowing Pine Bluff to speak to the World. Eveleth, Minn., also has a broadcasting station which has been heard here.

A broadcasting station requires much expensive apparatus and the talent to make it a success. Mr. Skeels believes there is ample talent in Bismarck for the purpose and believes that interest in the radiophone will grow to such an extent that it will be feasible to establish a station in Bismarck.

HUGHES CASE IS SUBMITTED

Briefs to be Filed by Both Sides In Case

The case involving the Hughes Electric company's delinquent taxes for 1919 was concluded before Judge Nussle in district court today, and briefs will be submitted in the matter. The testimony was largely with question to the value of the plant. Among the questions entering into the case was whether or not the valuation of a utility should be the same for rate-making as for taxing purposes. The county, which is represented by Geo. E. Wallace in the case, contends that it is not.

Testimony was produced by the county through records of the state tax commissioner's office to show that the plant was valued at over \$500,000 for the purpose of paying capital stock. Testimony for the company was to the effect it was worth \$355,000. The county maintains that in view of the earnings of the company the valuation was not excessive.

TRADES BODY IN MEETING

Jennings Is Indorsed For The Legislature

The Trades and Labor Assembly held its regular fortnightly meeting last night, heard reports on the state federation convention held recently and received a check from the executive committee of the convention for \$255, the balance remaining after all expenses were paid.

The assembly indorsed Thomas Jennings for representative in the legislature, and appointed a campaign committee to aid his campaign in the June primary.

Another open meeting will be held Monday, May 29, it was decided. There will be a dance and refreshments. The proceeds will be used for the campaign fund.

WAHPETON MAN NAMED SECRETARY

Fargo, May 16.—Plans to make the North Dakota episcopate self supporting, were the principal matters considered by the Protestant Episcopal congregation in session at Gethsemane cathedral.

Rev. W. M. Walton, Wahpeton, was named secretary of the district at the election held. Other officers named are C. D. Lord, Park River, treasurer; D. D. Holt, Fargo, chancellor; Dean H. F. Kjosman, registrar.

The council of advice consists of the following: Dean Cjoman, chairman; W. M. Walton, Rev. C. W. Baxter, Valley City; J. H. Frame, Fargo; P. L. Godwin, Fargo.

Last evening the annual Laymen's banquet was held. Addresses were delivered by Rev. F. E. Wilson and Col. Drummond. Following the banquet a reception was held at the bishop's house.

Valley City was chosen for the 1923 convocation at the business session of the convocation held today. The following delegates were named to attend the general tri-ennial convention of the church at Portland, Oregon, in September: Dean H. F. Cjoman, Fargo; Rev. N. E. Ellsworth, Williston, alternate; C. A. Wheelock, Fargo; W. B. Overson, Williston, alternate.

The same men were named as delegates to the provincial synod which meets at the same time and place with the addition of the following: Rev. A. Martin, archdeacon of North Dakota, and Dr. L. C. Lier, Ca. ton.

NESTOS TALKS UPON LEAGUE

Asserts Charges Proved By League Leaders

Fairbault, Minn., May 16.—The political and economic situation in North Dakota in the wake of Nonpartisan league rule was reviewed by Governor R. A. Nestos of the state in an address at the annual banquet of the Fairbault Chamber of Commerce last night.

"During the last winter and spring," he said, "their daily paper, a number of their local papers, the chairman of the executive committee and many other leaders have made charges and furnished proof of acts and delinquencies upon the part of the independent forces have dared to charge. He also charged that farm loans were frequently allowed 'upon the strength of the applicant's political activities.'"

FIVE-YEAR-OLD GIRL BURNED

Dickinson, May 16.—The five-year-old daughter of Fred Mettler of Beulah was fatally burned last Tuesday by a gasoline explosion, dying a few hours later. At the time of the accident she was in the house alone while the mother and other children were at the barn and the father in the field. It appears that she filled an

empty can with gasoline and tried to pour it on the fire in the kitchen stove. The explosion set fire to her clothes and she ran to the barn some distance away, where the mother extinguished the blaze. The fire had done its deadly work, the body of the child being burned to a crisp.

Plain Facts About Insurance

The Travelers Equitable Insurance Company of Minneapolis issues a Health Accident Policy that is constructed to fill the requirements of people who find a steady income absolutely necessary and who cannot afford to stand the expense and losses incident to the impairment of salary due to accidents and sickness. Our policies provide a steady, full income during disabilities and are non-cancelable, without restrictions, exceptions, conditions or legal technicalities.

14 POINTS OF EXCELLENCE

OUR POLICY PAYS	9—Surgeon's fees for non-disabling injuries.
1—Full benefit from first day of Sickness or Accident.	10—Extra Hospital demnity.
2—Full indemnity for Quarantine.	11—In case of loss of Eyes or Limbs, we pay full monthly indemnity for interval between accident and total disability IN ADDITION TO THE PRINCIPAL SUM.
3—For Sickness common to both sexes.	12—We write men and women on EQUAL TERMS.
4—For Accidental Death, Loss of Limbs or Sight.	13—The Large Business written by our Company is a measure of the public confidence we have won.
5—For Three Years on Accident.	14—We give Service and Protection, not merely a policy.
6—Double on Travel Accident.	
7—Ten per cent increase of all indemnities where premiums are paid annually in advance.	
8—For non-confining illness.	

You need INCOME PROTECTION as much as you need daily occupation and daily income.

No man can give a logical argument why he does not need Health and Accident Insurance or Income Protection.

That's what Health and Accident Insurance is—

NATIONAL AND STATE BANKS TO PAY TAXES

State Tax Commissioner Certifies Tabulation of Taxes Agreed Upon To Be Paid

SETTLED ON 50-50 BASIS

The State Tax Commissioner has certified out to the County Auditors a tabulation covering the basis of settlement agreed upon in regard to National Bank taxes for the years 1919, 1920 and 1921, and state bank taxes for the year 1920 and 1921, between state officials, and the executive committee of the State Bankers' Association. The tabulation shows the amount of money each bank is assessed for under the former assessments, and the amount of the balance between the bank and the county with the completion of 1921 collections.

After the circuit court of appeals of the United States had declared invalid taxes assessed against national bank stock for the year 1919, and the supreme court of North Dakota had declared invalid taxes assessed against both state and national banks for the years 1920 and 1921, the state administration was confronted by many questions. The court decision involved taxes amounting to \$1,588,145. Part of this amount had been paid, almost all of it under protest, and under these court decisions such part of these taxes as had been paid under protest would be subject to refundment. The administration considered calling a special session of the legislature to remedy the defective acts of 1917 and 1919 which had created a situation whereby any tax levied against bank stock was illegal. There was doubt, however, whether the legislature possessed power to pass a law which would make possible a valid assessment against bank stock for the years involved. The legislature, had, in specific language, stated that money and credits, including stocks and bonds, should be exempt from taxation and the supreme court had declared that such specific language could not be interpreted to mean anything other than what it plainly said. The only thing which a special session of the legislature could certainly accomplish was to provide for a valid assessment against bank stock for the year 1922.

The executive committee of the North Dakota Bankers' Association conferred with state officials and offered to pay taxes upon the basis of class 2 of personal property upon their bank stock, taking the definition of class 2 in chapter 230 of the Session Laws of 1919 with the further stipulation that the same basis should be used for the year 1922. To have called a special session would have meant that all unpaid taxes against bank stock for the years 1919, 1920 and 1921 amounting to \$1,114,170 would be lost, and that a large amount already paid under protest would have had to be refunded.

The sum which includes the amount already paid and to be paid under the agreement is divided among the various counties as follows:

EQUITY SELLS ITS EXCHANGES

St. Paul, May 17.—Purchase of the livestock selling agency branches of the Equity Co-operative Exchange at South St. Paul and Chicago by the Farmers' Educational and Co-operative Exchange of Iowa and the American Society of Equity of Iowa was announced here by Charles H. Watts, head of the Farmers' Union.

It was said approximately \$50,000 was involved in the transfer of the two agencies.

The Equity Exchange is principally a grain organization, while the Iowa Farmers' Union has been a livestock selling agency since its organization five years ago. The Farmers' Union now has agencies at several markets and its organization covers 26 states.

POWER BOAT TO STOP SMUGGLING QVALE'S PLAN

Minneapolis, May 17.—A 60-mile-an-hour speed boat on Lake of the Woods and strong guards patrolling the Canadian border are included in plans of S. B. Qvale, state prohibition director, to block whiskey smuggling into Minnesota during the coming summer according to announcement made today.

The key to the Minnesota problem is the Lake of the Woods, with its wild shore line extending several miles into Canada, Mr. Qvale explained. Bootleggers are in the habit of stealing across the lake with cargoes of liquor and landing in some obscure inlet on the American side, according to reports reaching him.

MINOT MAN PURSUED BY MANY CHARGES

Minot, N. D., May 17.—Arrests and charges have followed George Fouts here thick and fast recently. A few days ago he pleaded guilty to grand larceny. Released under bonds, he was arrested on complaint of his wife, that he had threatened to kill her. In addition he was charged with violating a city ordinance in connection with the altar. While his counsel were trying to get him out of jail, police filed a new charge against him in connection with the alleged finding of a fall to his house. It was charged he was manufacturing intoxicating liquor. Last accounts he was unable to furnish \$10000 bail.

NAKED MAN CRAZED WITH MOONSHINE FOUND IN FARMER'S HOUSE

Minot, N. D., May 17.—A member of the road building crew employed by Stevens Bros. in charge of a road building project near Burlington, was picked up at Burlington Friday, insane from drinking too much moonshine. The fellow took off every stitch of his clothing and covered himself with mud, then entered a farm home near Burlington where he was found in the kitchen by the farmer's son when he went to build the fire. The fellow was fitted out with overalls and a jacket and brought to Minot. He appeared before the insanity board Saturday who continued the case until Monday, believing the man would recover as soon as the effect of the jackrabbit whiskey wore off. It is said the fellow had been drinking a quart of moonshine daily.

LONDON DOCTORS HAVE HARD TIME

London, May 17.—London doctors are complaining as loudly as their professional dignity will permit of hard times. They declare that fewer people seek medical advice nowadays than ever before and that they complain more loudly of the fees charged by specialists. On the other hand some citizens report that the fees of specialists have been maintained at their highest mark while British salaries and incomes have been depleted.

'INTERNATIONAL CITY' MAY BE BUILT BY 1930

Brussels, May 17.—The striking idea of building an "international city" at the gates of Brussels which was first proposed to King Albert of the Belgians in 1913 has been revived and it is now proposed to erect the city and inaugurate it at the same time as the Brussels International Exposition in 1930.

It is intended that the international city shall be a permanent institution where every country will have a building in which it will display not only its manufactures and products but examples of its art and records of its social progress.

These plans were first submitted to King Albert in 1913 by Hendrik C. Anderson, an American sculptor, formerly of Newport, R. I., who then was living in Rome. Mr. Anderson was aided in preparing his plans for the ideal city by Senator Henri La Fontaine and Paul Otlet.

The idea now has been adopted by the Union of International Associations which has its headquarters here and which has submitted the plan to the Belgian government.

BOISE ELECTED PRESIDENT OF CRIERS' CLUB

New Officers of Organization Named at Meeting Held at Phone Company Plant

INSPECT PHONE PLANT

Town Criers Learn Something Of Magnitude of the Telephone Business

The Town Criers club held its regular meeting at the plant of the North Dakota Independent Telephone Company last night, inspected the plant, and held a business session at which officers for the ensuing year were elected. New officers of the club were chosen as follows:

President—Spencer Boise.
Vice-president—William Neal.
Treasurer—Arthur Bolster.
Secretary—George Keniston.
Member-at-large Board of Governors—Clyde Bonham.

Two new Criers were received into membership. They are R. P. Logan and John Hoffman.

Members of the club learned something about the magnitude of the telephone business, the progress being made in this field through new inventions, and the troubles of the telephone girl. Under the guidance of L. S. Craswell, district manager; J. L. Vachon, local manager; B. M. Dunn, wire chief, and Gertrude Ringheim, chief operator, the member of the club inspected all parts of the plant.

Much interest was expressed in the repeater apparatus, in which use of the principle which has made wireless telephony possible is applied to the telephone. Through this apparatus calls of great distance, such as trans-continental calls, are made possible. Without them the voice would not carry over the wires in sufficient volume to be heard across the continent. Every 15 to 200 miles the sound waves enter the "repeater" station, where the sound waves which have decreased in intensity are "stepped up" to the same volume as at the sending station. The result is that the voice is heard as loud at the end of the line as a few miles away from the point at which the person is talking.

13,000 Calls a Day

The Criers learned that there are 2237 telephones handled by the local company, that 36 employees are busily engaged in maintaining the local and long distance system, that 13,000 local telephone calls are handled daily and that 1,100 toll calls are put through in one day.

The busiest period for the telephone operator, they learned, is between 9 and 10 in the morning when housewives are getting in their morning calls, and the next busiest period is between 7 and 8 in the evening when appointments are being made. The busiest period of long-distance transmission, however, is between 2 and 3 in the afternoon, accounted for in part by the transmission of a grain report at that time. The Criers were amazed to learn that one experienced operator will handle during the busy period of the day 300 telephone calls an hour, or five a minute, without difficulty.

Mackintosh's Visit

During the meeting there was discussion of the forthcoming visit of President Mackintosh, of the Associated Advertising Clubs of the World, to Bismarck Thursday night, May 18, to make address. His topic will be "More Retail Sales." It was emphasized that every business man is invited to be present and is urged to have all of his employees present to hear Mr. Mackintosh, who is completing a tour of the United States during which he has had, perhaps, better opportunity than any other man to study business conditions.

HAS MESSAGE FOR RETAILERS

President Mackintosh of A. A. C. Of W. N. Makes Address Here

There are certain expenses connected with the operation of a retail store which go ahead, regardless of the volume of business the store does—such as rent, heat, light, insurance, interest on invested capital, etc. Therefore, say the members of the Town Criers club, if a store can, through better advertising and better salesmanship on the part of its employees, increase its volume, its owners can make more while also selling merchandise for less. In such a case, each dollar of sales income carries a smaller load of expense.

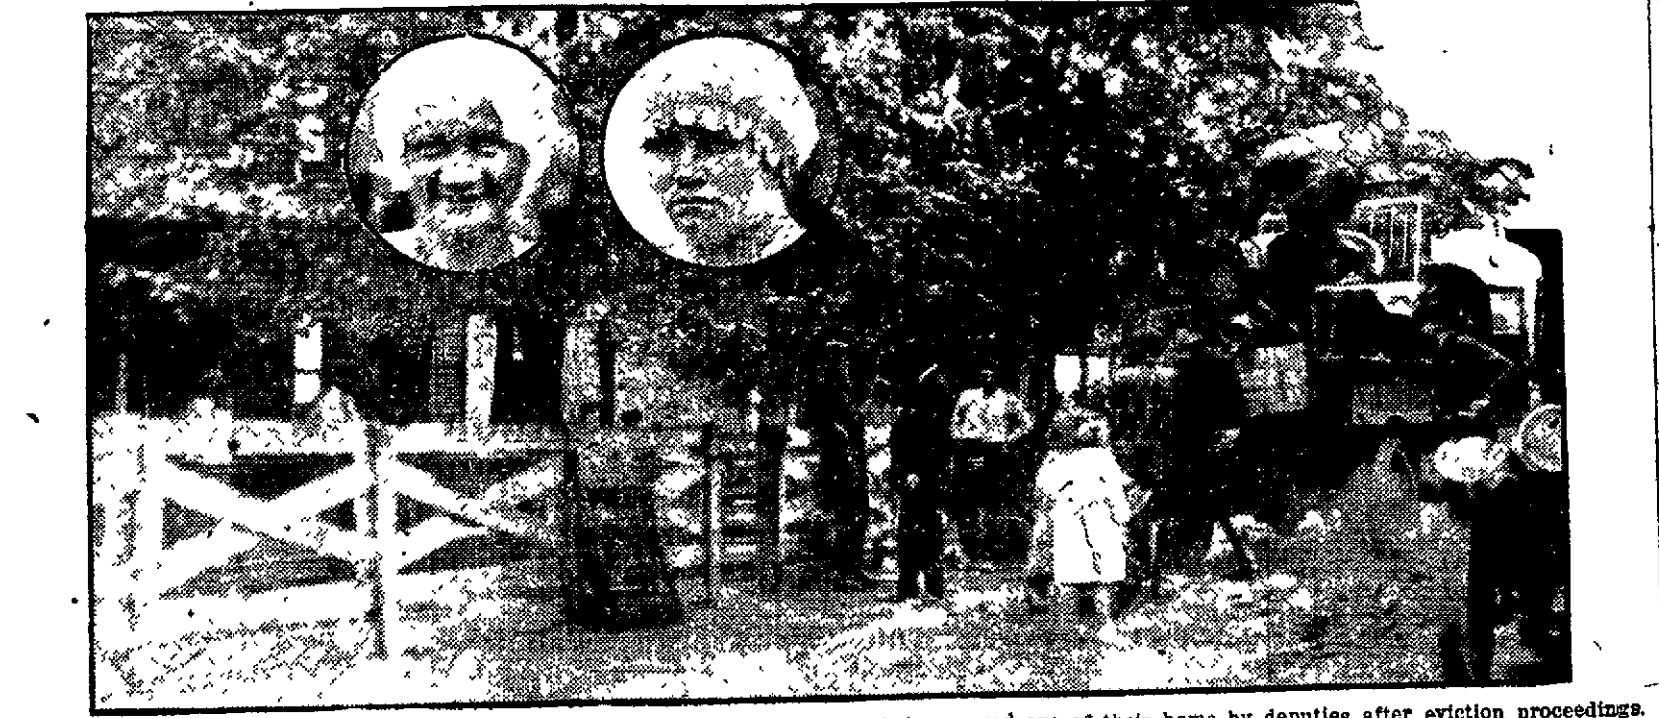

The Associated Advertising Clubs of the World, whose president, Charles Henry Mackintosh, of Chicago, will speak at the American Legion hall, Thursday night, at 8 p. m., are working toward the reduction in the cost of getting goods from the maker to the user, through better advertising and through the training of retail sales people.

When he speaks here, members of the local organization say, he will explain in detail, the great educational plans of the advertising clubs, and the members expect that business men not belonging to the advertising club will attend and learn of the important work the association is doing.

LA MOURE GETS AGENT

LaMoure, N. D., May 17.—LaMoure becomes the thirty-seventh county in the state to have a county agricultural agent employed in cooperation with the state extension division and the federal department of agriculture as a result of the recent action of the directors of the LaMoure County Farm Bureau, who voted to appropriate sufficient money to care for the county's share of expense for maintaining an agent for a period of six months.

\$390,000 FARM MORTGAGES ARE PLACED ON FILE

This Amount Sent to State Treasurer's Office on Which Bonds May be Issued

EXPLAIN THE LOW TOTAL

Farm mortgages totalling approximately \$390,000, of which about \$90,000 were loans made by the former administration, have been certified to the state treasurer by the new administration of the farm loan department of the Bank of the North Dakota. The farm mortgages are certified in lots of approximately \$100,000 on which bonds are issued.

Because of the fact that a great amount of bonds already sold to Spitzer, Rorick and company have not been taken up by the state as yet because farm loans have not been made in sufficient volume to take up the bonds, it is not necessary at this time to sell more real estate bonds.

The \$390,000 of mortgages certified to the state treasurer were in process of completion by the former administration and were completed after the new administration took charge.

Explanation for the disparity between the amount of mortgages certified for bond issues and the reports of the total amounts closed is said to be that many persons to whom loans are made delay their closing by not promptly signing papers and furnishing satisfactory titles.

The bi-monthly report of the farm loan department says:

For two weeks, May 1st to 14th, 1922.

No. of Loans	Amount
New Applications Received	79
New Loans Appraised	172
New Loans Approved for Closing	136
Approved Papers, Papers sent for execution	117
Total Applications appraised to May 14, 1922	\$2,909,950

"Papers are sent for execution immediately upon approval of applications approved at face and as soon as acceptances are received on all reduced approvals. All loans are being handled and paid without delay just as soon as the borrowers sign the papers and furnish satisfactory titles.

"There is at all times a substantial volume of appraisal reports, recently received, in transit through the Department, being summarized, checked for errors and held for collateral information.

"Loans are appraised, approved and paid every month in every county of the state."

GRAIN FUTURES ACT NOT VALID USE OF POWER

Supreme Court Decisions Holds Act Is Violation of Taxing Power of Congress

OPINION GIVEN BY TAFT

Washington, May 16.—Section four of the future trading act and those parts of the act which are regulations affected by the so-called tax imposed by that section, were held unenforceable by the supreme court in an opinion by Chief Justice Taft, to which Justice Brandeis dissented.

The section was held unenforceable because it was not a valid exercise of the taxing power of the federal government in that it attempted to regulate transactions over which the federal government had no constitutional control and was an invasion of the police powers of the state.

DRY OFFICERS RAID MARMARTH, MAKE ARRESTS

Marmarth, N. D., May 16.—With one more call to complete a "clean-up" of Bowman county, the Federal prohibition enforcement officers moved into Marmarth on their way into the west river country, of Bowman county, and after putting their car up, meandered down the street with their noses in the air and their ear to the ground,—if one may imagine such a position being maintained by an officer.

Before walking the length of Main street, the squad bumped shoulders with a happy party sitting in an automobile and enjoying the contents of a partially emptied bottle. Coming to a "point" the officers asked assistance in securing a quantity of the same beverage, which was accorded them promptly. "Shadowing" the willing assistance to the "moonshine" lair the officers located the haunts of the "mule," and after paying their two dollars for the "short" pint waited for morning to come.

Monday morning they secured a Federal search warrant for the premises of Ed. Jensen on the corner of Second Ave. W. and First St., and proceeded to make their search. They found a gallon of liquor. This they confiscated, and armed with an affidavit from the purchaser of the night before, they arrested Jensen and took him to Amidon where he was held pending the arrival of the U. S. Marshal with a federal warrant.

Owing to their great extent, the famous Shoshone caverns at Lime Spahr, Mont., have never been fully explored.

SOCIETY LEADERS PLAY AS "EXTRAS"

Several hundred prominent San Francisco society folk played roles as humble "extras" in "Foolish Wives," the million dollar picture to be seen at the Eltinge Theater today and tomorrow. The "millionaire extras" were used to give tone to the promenade scenes which picture the wealthy crowds surging along the walks and terraces at Monte Carlo.

The Universal Film Company, in order to reproduce these scenes, built an immense set at Point Lobos, near Monterey, California. The ocean side of Monte Carlo's famous casino, the bandstand, and the seaside promenades of the Riviera resort were duplicated.

GRAIN FUTURES ACT NOT VALID USE OF POWER

Supreme Court Decisions Holds Act Is Violation of Taxing Power of Congress

OPINION GIVEN BY TAFT

Washington, May 16.—Section four of the future trading act and those parts of the act which are regulations affected by the so-called tax imposed by that section, were held unenforceable by the supreme court in an opinion by Chief Justice Taft, to which Justice Brandeis dissented.

The section was held unenforceable because it was not a valid exercise of the taxing power of the federal government in that it attempted to regulate transactions over which the federal government had no constitutional control and was an invasion of the police powers of the state.

Section four imposed a tax of 20 cents a bushel upon future trades in grain when made upon exchanges not designated as "contract markets" subject to the federal control or when not made by actual owners of the grain or by the owners or the renters of land upon which the grain is to be grown.

While the decision stated that a number of the sections of the act were valid, Senator Capper, Republican, Kansas, one of its authors, declared the decision "a knockout," which "practically destroyed the effectiveness of the act."

"The decision will be a great surprise to the lawyers who assisted in framing it and who were confident of the power of congress to make such use of its taxing power," said Senator Capper. "I am very much disappointed. We must look around and see what can be done by future legislation effectively to accomplish some of the things we sought to do in the future trading act."

Regulation Purpose of Law

The purpose of the statute was primarily to regulate future trading in grain so as to compel the larger exchanges to admit to membership cooperative farmer organizations. This was done by providing that the heavy tax would be imposed upon all such exchanges which did not become "contract" markets requiring the exchanges to amend their rules and admit the farmers' cooperative organizations to the membership.

Sales for future delivery in grain exchanges are not of themselves interstate commerce, the court declared. Section 11 of the act provided that should any section be declared invalid that section should not affect the validity of the remaining sections. Chief Justice Taft declared section 11 "did not intend the court to dissect an unconstitutional measure and reframe a valid one out of it by inserting limitations it does not contain."

the power and function of the court," he said.

The court found, however, that there were sections of the act which must be held valid, such as section nine, authorizing investigations by the secretary of agriculture and his publication of results.

Section three also was declared valid. That section imposed a tax of 50 cents a bushel on transactions known to the trade as "privileges," "bids and offers," "puts and calls," "indemnities" or "ups and downs." Such a tax was held to be clearly within the congressional power as it was not regulatory.

While the court stated it "may suppose that it was intended by congress to suppress such transactions, we cannot under our previous decisions treat the section as other than what it purports to be "a tax."

High School Girls Serve Banquet to Members of Board

At Meeting of Board it was Decided to Offer French in Local Schools

A committee of girls from the high school cooking class, under the direction of Miss Olga Johnson served a banquet in the Domestic Science rooms of the high school last evening. Covers were arranged for Mr. Owens, Mr. Dullman, Mr. Lenhart, Mr. Will, Principal DeBolt, J. A. Larson, St. Penwarden, clerk, and Superintendent J. M. Martin. A color scheme of red and white and white carnations were used to decorate the table. Much credit is due the teacher in charge, Miss Olga M. Johnson for the success of the banquet.

The school board approved the report of the teachers committee. They decided to introduce French in the school next year. Second year Spanish will be offered for those who begin Spanish this year but after next year it will not be offered. It was decided to install a kindergarten in the Richholt school, and get a teacher to take charge of it next fall. According to law bills are being made out at the high school which will be sent to each township having children in the high school on June 1. There was some discussion of taking out the Commercial department in the school but on the application of several business men it was decided to retain this department. The school now owns 19 typewriters. The vacancies of teachers yet to fill in the school are: Chemistry, Physics, Commercial teachers and secretary.

Local Women Will Appear on Program

Mrs. H. B. Beach, president of the State Federation of Business and Professional Women's clubs, Miss Minnie J. Nielson, state superintendent of public instruction, Miss Carrie Hansen, Miss Rose Huber, and Miss Mary Buchholz left this afternoon for Grand Forks where they will attend the meeting of the North Dakota Federation of B. and P. W. clubs.

Miss Rose Huber will preside at the banquet which will be held at 7:00 o'clock Thursday evening. Miss H. B. Beach will give an address as state president at the meeting on Friday morning. Miss Minnie J. Nielson will give an address on "The Teacher a Factor in the Business World," at the meeting on Friday morning.

The Grand Forks club members and delegates will be entertained at the University of North Dakota Friday evening at the annual May fete.

Mrs. Hughes' Pupils Appear in Recital

A good sized crowd of parents and friends attended the piano recital given by the pupils of Mrs. Genevieve Menard Hughes at the high school auditorium last evening. The collection taken for the benefit of the students entering the musical contest at Grand Forks netted something over \$5.

Each number on the program showed careful preparation on the part of the pupils and untiring effort on the part of the teacher, Mrs. Hughes. The following took part in the recital: Gerald Hunter, Wilma Cunningham, Jean MacLeod, Ethel Follard, Rex Berndt, Joyce Moulde, Marie Ordner, Jean and James Anderson, Emily Patterson, Isabel Humphreys, Richard Wilson, Olive Hughes, Myrtle Smart, Gayhart Patterson, Ruth Gordon, Esther Larson and Mabel Anberg.

BREAST MILK IS BEST OF ALL IN SUMMER TIME

A HEALTHY BREAST-FED BABY

By Mrs. Max West
Late of the United States Children's Bureau.

The easiest baby to take care of and bring through the hot weather safely is the one who is nursed at his mother's breast.

Even a few drops of mother's milk may be the means of warding off serious and possibly fatal illness. This is particularly true of the young baby.

Up to three months of age at least, breast milk is invaluable and even if the mother's supply is not quite sufficient for the baby, she should give him the benefit of every drop there is, especially through the hot days of summer.

The baby should be allowed to nurse both breasts, if the supply is scanty. This not only helps the baby, but is the best known way for producing more breast milk. It has been found that more important than the diet for the nursing mother is the regular stimulation of the breasts by the nursing of the baby, or by a method of hand manipulation by means of which the breasts are emptied, when necessary, by the mother herself.

Tiny babies, deprived of mother's

social was in the nature of a farewell for Mrs. James Algeo, who left last night for Oshkosh, Wisconsin, where she will visit before leaving for her new home at Sioux Falls, S. D. Mrs. Boise was elected corresponding secretary to fill out the unexpired term of Mrs. Algeo.

TO ENTER CONTEST

Misses Ethel Follard, Arl Anderson and Esther Larson and Rex Berndt left this morning for Grand Forks where they will take part in the state musical contest. milk often have a hard time to cling to the frail thread of life in summer, and it is no unusual sight to see a devoted nurse going from one hospital to another, the city over, trying to find some nursing mother who can spare a few drops of the precious fluid which alone will avail to carry some infant past such a crisis.

But even breast-fed babies may suffer serious harm in summer if the rules of good feeding are not fully observed. If the mother makes a practice of offering the breast every time the baby cries, or permits the child to nurse whenever he wakes at night, it will be very easy to set up a bad case of indigestion.

Most babies thrive well if fed only once in four hours, and three hours is the shortest time that should elapse between feedings. After the early months, the baby should not require to be nursed later than the hour at which the mother retires, and many healthy babies early learn to sleep all night without feeding.

In hot weather, overfeeding is far more serious than at any other time, for a slight digestive upset easily becomes an alarming illness during the days of excessive heat.

WHY STOP AT THE BANK?

"There has never been the slightest legitimate excuse for the creation of the Bank of North Dakota as a commercial agency," solemnly opined the Grand Forks Herald of recent date. The editorial continues to lambast the Home Building association and concludes empirically as follows: "Mr. Baker and his associates are pledged to the revival of both institutions, and if, by any chance they should gain control of the administration, the people of North Dakota would be doomed to another series of ill-considered and costly experiments in fields where the activities of the state are not called for and do not belong."

The Herald speaks the truth, but why restrict the attack to the Bank of North Dakota and the Home Building association. Jerry Bacon is silent upon the Grand Forks Mill and Elevator and the Drake "experiment" which Secretary Crawford is attempting to show through skillful juggling of figures has made a profit within the last few weeks, but the Crawford statement will not bear close analysis and belongs to the species known as campaign material to be taken before election and forgotten after the votes are polled.

Everything the Grand Forks Herald says about the Bank of North Dakota and the Home Building association applies with even greater force to the Grand Forks Mill and Elevator. The money losing possibilities of the Drake and Grand Forks ventures are much greater than would result from the bank and home building ventures, but the mill and elevator mean political pork for Jerry Bacon's organization and that is why The Herald is as silent as the tomb upon the business wisdom of the state engaging on such an enterprise.

As the campaign continues, the inconsistencies of the I. V. A. position will grow. State socialism is either right or wrong and it makes little difference in the final analysis what political clique controls the administration of such theories. Taxes will pile up as relentlessly under one regime as another.

The I. V. A. press may pat the administration upon the back for its success at selling bonds as an evidence of North Dakota's "regained credit," but with every bond that is sold to boost the state into the mill, elevator or bank business, the state's credit is lessened and the tax payer's liabilities are increased.

It should not make much difference to the tax payers whether the league or the I. V. A. is the tax master. Politicians are politicians and as one faction waxes in strength and becomes more entrenched in state socialism, bond issues will increase and pay day will arrive inevitably.

The voters should be thankful if bond issues could not be sold. Such a situation means money in their pockets despite the reluctance of leaguers of I. V. A. henchmen to tell them the truth.

At a recent bond sale, no real estate bonds were sold. Action was deferred, it was announced, because of certain technicalities. Farm loans are more necessary in these conditions than a half million more bonds for money to be squandered at Grand Forks. But Jerry's pork barrel took precedence over the farmer's needs toward whose relief a golden stream was to flow after the recall had obliterated the last sordid traces of greed and graft.

But it was ever thus.

The clear cut, logical platform of H. L. Stegner which proposes to wipe out the sorry mess and junk the league and I. V. A. program is gathering support despite the fact that most of the press refuses to discuss the chief issue in this campaign: Ridding the state of socialism and confiscatory taxes.

It is to be hoped that the truth will be carried to the people and then the hypocrisy of engaging in a campaign upon the other fellows platform on the sole issue, "elect us as we are more honest and less socialistic than the league" will dawn upon an electorate which is being plunged deeper into debt every day to carry out a class program which the craven politicians believe means votes.

ART

European artists believe that the United States is on the verge of a great artistic awakening. "It would develop normally with culture," says William H. Fox, director of the Brooklyn Museum. "Indications are, it is coming fast. As a reaction from the war, wide-spread interests in the best art works is rapidly developing. Attendance at the Metropolitan Museum of Art has doubled in the last six years."

This is both good news and bad. When a civiliza-

tion develops a great artistic culture, it is ripening to decay.

Fear not, however. It'll be a long time before statues and oil paintings attract as big a crowd as Charlie Chaplin's custard pies.

JEWELS

The big Dara-Gai-Noor diamond, which Princess Fatima claimed was second largest in the world and worth \$300,000, is knocked down for \$5500 at a sheriff's auction in New York.

Government customs men had fixed its duty at \$1400, which would make its full value about \$7000.

Most sensational things in this world are like skyrockets—wind up by fizzling.

Alexander the Great must be moaning softly in the Hereafter. The Dara-Gai-Noor diamond once belonged to him, according to myth. He would have traded a wagonload of such gems for a Ford car, one electric light or a toy radio—the real jewels of modern times, unknown to the ancients.

HYPNOTISM

Ralph H. Seaman, freshman at New Hampshire College, got interested in hypnotism and tried it on his room-mate.

It worked—so well, in fact, that Seaman couldn't bring his subject out of the hypnotic trance. Druggists and physicians finally wakened the victim from his coma.

Student Seaman says he is through with hypnotism.

Whether you believe in the occult or not, it is a dangerous buzz-saw to monkey with. Hypnotism and psychic research have their scientific value. Like dynamite, they are risky for amateurs, especially in effects on imagination.

STRENGTH

An insane woman escapes from the asylum at Poughkeepsie, N. Y. When captured, she had walked 40 miles in one day.

Such spurts of energy are common among the insane. It often requires half a dozen strong men to over-power a maniac and get him into a padded cell.

Take a sane man, a weakling, who cannot lift 100 pounds. Five minutes later, if he suddenly goes crazy, he can easily lift 500.

Strength of muscle and power to accomplish are largely matters of confidence. Weakness is lack of confidence, fear—all in the imagination. You are what you think you are, no more, only occasionally less.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

POETRY AND NATIONAL PRIDE

It was certain that the slightest words with which the Saturday Review, Nation and Athenaeum, and New Statesman reviewed contemporary American poetry, as presented by Louis Untermeyer's new anthology, would prove a red rag. But even allowing for the mock exaggeration in Mr. Untermeyer's protest in the Nation, he is too caustic. He speaks of England as worried lest we boycott her literary wares and send our own over to compete; a statement which sounds odd when we recall how complacently England used to buy more copies of Longfellow than of Tennyson. He pictures England jealously watching the Hudson "set ablaze" by Hergeshemier, Hecht, Cather, Dos Passos, and others. But is the Hudson really on fire for Ben Hecht or Dos Passos?

There must be an optical illusion somewhere. And, after all, the idea of the land of Kipling, Conrad, Galsworthy, Hardy, Wells, Shaw, and Masefield worrying about the loss of American esteem is decidedly quaint. It is equally quaint of Mr. Untermeyer to complain of the English lack of courtesy in calling Edwin Arlington Robinson "dull" when in the same paragraph he calls six English poets "feeble," dealers in "faded properties" and writers of "pretty inanities."—New York Evening Post.

TRUE TO LIFE AT LAST

There is much to be said for the latest effort of the motion picture magnates to bring realism to the screen. We have always suspected that some of our pictures of so-called fashionable life were not all they should be; but now that a full-license butler with years of experience in the best English mansions has been hired to supervise the training of motion picture butlers, there is no longer any need for suspicion.

We shall now know the truth about how lords and ladies and princes and dukes behave; what they do with their napkins; how they hold their teacups, and whether they pick up silverware inadvertently dropped.

This new moving picture butler-trainer, for instance, has already divulged some secrets which ought to make it easy for us to tell whether this or that screen butler is correct in every detail. Butlers, we are told, should never wear side-whiskers, better known as "mutton chops;" they should never wink at parlormaid; they should never appear in full dress at nine in the morning. And, above all, we should never represent a butler with a feather duster in his hand. Butlers never do the dusting.

These things are not trivial matters at all. It is always gratifying to be able to tell the sham article from the real thing—even in the case of moving picture butlers. But, above all, let us have truth, even on the screen.—Parkersburg News.

AH, THIS NICE SPRING WEATHER!

MANDAN NEWS

Mandan Girl Is Member of Choir

Ruth Renden, daughter of Mr. and Mrs. G. A. Renden of Mandan, and a sophomore at St. Olaf college, Northfield, Minn., is a member of the famous St. Olaf choir, which will appear in concert during the annual Music Festival to be held there May 20 and 21.

The eastern tour of the choir this year was such a tremendous success that Manager Paul G. Schmidt is still being swamped with requests for concerts, and it is totally impossible for the choir to grant more than a small number of these demands. Comments made by Eastern music critics were extravagant in praise, and there was universal surprise that such a superb body of singers should come from the northwest to show the east the finest in vocal singing. Chicago named the choir "one of the most remarkable organizations that has visited Chicago," and Albany proclaimed it "the finest choir in America, and not in the world." The Toledo Times review contained the following statement: "If the celestial choir have in their repertoire anything more lovely or uplifting than the hallelujahs of the St. Olaf choir, no mere human sensibilities could hear them and survive the ecstasy."

To be chosen a member of the choir is considered as great an honor as can come to a St. Olaf student. Miss Renden sings first soprano, and has been in the choir for two years. The Music Festival is an annual celebration at St. Olaf which draws large crowds from surrounding territory, special trains being required to care for the visitors.

A wedding of interest to many friends was solemnized at 8 o'clock

Monday morning at St. Joseph's Catholic church when Rev. Fr. Clement Dimpl united in marriage Mrs. Barbara Senn of Glen Ulin, and Michael S. Kraft of Mandan. They were attended by Frank Kessler and Mrs. Matt Schardt of this city, and will make their home on Second avenue N. E.

Mrs. C. T. Sponset and baby son left yesterday for Forsyth, Mont., where they will join Mr. Sponset and make their future home.

Mrs. Fred Metcalf of Casselton, who has been visiting at the home of her daughter, Mrs. L. C. Broderick, is quite ill.

Mr. and Mrs. Harry Melander have left for Moorhead, Minn., where they will be the guests of relatives.

TODAY'S WORD

Today's word is PERSONAGE. It's pronounced—par-sun-aj, with accent on the first syllable. It means—more than the mere note, distinction, importance. It comes from—English "person," the origin of which is uncertain, though possibly from Latin, "persona," a mask. It's used like this—"A number of influential personages are mentioned in connection with the charges of war grafting recently made in Congress."

NEW CHAIRMAN NAMED.
Although John H. Bloom and Dr. E. C. Stucke were declared to have forfeited their places on the state game and fish commission they have joined to invest C. E. Manning, of Fargo, as chairman and elect Dr. Stucke in his stead. It became known here with presentation of claims for salary and expenses. Neither of the appointees in chairman was made according to Geo. M. Hogue, secretary.

J. Bertram Simon, a well-known photographer, of Tacoma, Wash., who says that since taking Tanlac with such good results he now knows why everybody is praising this wonderful medicine.

"When they told me about Tanlac it seemed almost too good to be true, but since taking the medicine I know for myself that all they said about it was so," said J. Bertram Simon, 1031 E. 46th St., Tacoma, Wash., a well-known photographer.
"I suffered from rheumatism in my shoulders for ten years and at one time had to go to the hospital, I was down in bed for months and hardly able to turn from side to side. I couldn't sleep and I don't believe I had a day free from pain. My appetite failed and I couldn't digest a thing properly. Gas made me have heartburn for hours after meals.
"In a very short time after I started taking Tanlac I actually felt like a new man. I am now entirely rid of rheumatism and my stomach is in first-class condition, while I have gained ten pounds and never felt better. I have recommended Tanlac to a number of people and I am always glad to say a good word for this remarkable medicine."
Tanlac is sold by all good druggists.

ADVENTURE OF THE TWINS

By Olive Barton Roberts

Mr. Peerbout, the Man-in-the-Moon, shook some of his magic powder over the Twins out of his wonderful ruby bag, and said some words like this:

"Looney, mooney, shiver and sneeze, 'Up here on the moon you'll surely freeze!'
"Now, hoory powdery, work your charm.
"Keep Nancy and Nick both nice and warm."

Instantly the cold left their bones and a nice, warm glow seemed to spread all through them.

"That feel better?" asked the Moon-man.

"Oh, much better, thank you," nodded Nancy, who was beginning to like the queer, ragged old fellow and his queer ways of getting things turned around.

"And now," said Mr. Peerbout, putting his shaker away and sitting down himself, "won't you tell me about yourselves, and how it happened that the Fairy Queen sent you to help me? Or would you rather hear about me and the moon-people first?"

"Oh, yes, sir! If you please, sir!" begged Nick, who was dying of curiosity. "Things here seem to be so—so different from what they are on the earth. And Nancy and I are all mixed up. Perhaps you'd better tell us about it so we won't make mistakes while we are here."

Mr. Peerbout chuckled until his long beard shook and the top of his bald head grew quite red. He winked wisely at the Magical Mushroom, who had come with the Twins and who was about to take his departure and go back to his duties on the earth.

"Well, well, well! Aren't they wise, though?" cried their host. "When you go back to the Fairy Queen's palace, Mr. Mushroom, please tell her that she couldn't have sent better people to help me."

"An ounce of sense is better than ten pounds of wisdom and these children seem to have enough for a regiment. Besides I have enough wisdom for everybody, being half a million years old. Now I'll tell you my story."

NEW ENGLAND FIRM GETS MAIL CONTRACT

Dickinson, May 17.—With the opening of bids on mail contracts between Dickinson at Manning at the local post office last week, the contract for carrying the mail between the two points for the next four years was awarded to the New England Horse and Auto company, which has also the contract between Dickinson and New England.

The successful bidders have agreed to handle both contracts for \$3,000 per annum and will take over the Manning route on June 30. Charles DeFoe has held the contract for the past several years.

Walt Christensen, who is in partnership in the business with George Gardner of New England, said that Thomas Gellon would probably be the new carrier on the Manning route.

Daddy's Evening Fairy Tale

MR. MOON'S PARTY

"Come, children, come, Moonbeams," said Mr. Moon, "I am going to give a party. And come, Stars, for you must see what fun we are going to have."

"Come, fairies, for I want all of you. Mr. Moon is going to give a party."

"Come, Pine Trees, come to Mr. Moon's party. It will be given this evening two hours before midnight, and I shall welcome all my young men as by long-haired ancient."

At ten o'clock the fairies all came to the party and the Stars were all twinkling in the sky and saying: "Good evening," as often and as fast as they could.

The two tall pine trees which were on top of the hill where Mr. Moon had said his party was going to take place, were saying:

"Good evening, good evening everybody!"

They bowed slowly and gracefully to all the guests, and they looked so majestic and so dignified and so handsome.

The Snow Fairies came along dressed in their dazzling snow suits. What lovely suits they were! They were of snowy white with sparkling jewels all over them.

When they ran and played it seemed as though the Snow Jewels had sent their snow jewels down to the earth. They dazzled and sparkled all over the ground.

Madame Snow came, too, wearing her lovely white snow cape and her best snow evening gown. She wore beautiful jewels, too, and her dress and evening cape were both edged with snow diamonds.

"You see," Mr. Moon said, as he smiled at all his guests, "this afternoon two children were sitting on this hill. A little boy and a little girl were sliding down this hill again and again and again."

"They had the most wonderful time, and I heard about it from the Sky Messengers. But I couldn't see them as I was resting and wanted to be rested by the time evening came."

"I did want to see where they had been playing, and when I found what beautiful tracks they had made and how they had smoothed down the snow, and what fine coasting there was, I wanted to give a moonlight party."

"So I sent out my invitations at once to ask you all to come to my party. And now I'm going to give you such light that it will look like daylight, so clearly will you be able to see."

"I shall shine on the hill down which you are going to slide, and it will look as bright as though Mr. Sun himself had decided to give a party."

"You will notice that you can even see the footprints of the little boy and the little girl, which they made when they walked up the hill with their sleds before sliding down it."

"Yes, Mr. Moon is making it look as bright as day for his party."

His two good friends, the Pine Trees, are adding a great deal to the beauty as they always do, and the lovely jewels and white dresses of the Snow family make the scene a very gay and bright one.

"But isn't it fun to see the footprints of the children? Mr. Moon does enjoy that. He can see them so plainly, too, when he shines as brightly as this."

"And he thinks it is such a fine idea to coast and to slide down hill that he wants to keep the tracks where the children were hard and fine for tomorrow."

"They have another whole day of coasting to-morrow. Come on, guests, let us see the fun."

So Mr. Moon smiled and beamed at his guests enjoyed the party, and Mr. Moon sang to himself:

"In the footprints of the girl, In the footprints of the boy, Go my guests this evening, Singing, and full of joy, Mr. Moon is shining, So it's just as bright as day, Hurrah, hurrah, hurrah!"

And all of the guests shouted: "Hurrah, hurrah, hurrah!"

HARRY WONG TI, LEGION MAN

One of China's Most Active Sons in New York, Worker for His Organization.

The long-tailed queues and honorable garb of the celestial, the dangerous dives and the ornate joss-houses are pointed out to sight-seers aboard New York's rubber-neck busses-rumpling through Chinatown. But perspicacious persons realize that "China in America" is represented as often by clean-cut young men as by long-haired ancients.

Harry Wong Ti, who served in the Seventy-seventh division, is one of China's most active sons in New York. One of three American-born Chinese ex-service men of the John Purroy Mitchell post of the American Legion, Ti is busily occupied in raising funds for a lean-to at the veterans' mountain camp in the Adirondacks. He also serves on the executive committee of his post. In a recent round-up of slackers in Chinatown several Chinese ex-soldiers assisted the Legion "detectives" in the work of tracking their quarry, and in many other ways Chinese service men have proved to the Legion, by their progressiveness and their initiative, how worthy they are as patriotic citizens.

OLD GLORY AND UNION JACK

Emblems Float Side by Side Over Great Arch Astride Canadian and United States Border.

Astride the Canadian border at Blaine, Wash., is a great peace arch, celebrating a hundred years of friendly relations between Canada and the United States. Side by side float the Stars and Stripes and the Union Jack—a symbol of our international good will.

The vista of peace which American Legionnaires saw in their mind's eye through this portal gave them the name of their "Peace Arch" post at Blaine. At the time of the unveiling of the monument the Legion took an

active part in the ceremonies, and represented with their uniformed ranks the strengthening of the bonds of brotherly feeling with Canada, which came as a result of the recent alliance against a common enemy for common ideals.

On the architrave of the monument are carved the words, "Children of a Common Mother," to perpetuate the idea of the triangular relationship between England and her two American offspring.

Carrying On With the American Legion

A plea that all students at Nebraska university join the Legion "for the honor of the institution and the perpetuity of our country" has been made by Chancellor Avery.

The "Society of Military and Naval Officers of the World War" has come into existence in New York state. Plans are under way to make it a nationwide organization, with hereditary membership.

Ex-service men who ask for aid at Racine, Wis., receive no hearing unless they hold a letter of endorsement from the American Legion. "Impostors in bought uniforms" have brought on the move.

Influx of Japanese on newly opened farm land is opposed by the American Legion of central Oregon. George Shima, so-called Japanese potato king, has shares in a company which owns 17,000 acres of this land.

"To aid and to aid quickly" is the object of the Washington, State association in New York City, which is checking up on Washington state soldiers in need. The Legion is asking other states to "do likewise."

"Wait two years until the gas gets working good," was no idle jest on the part of the Germans. Almost one-third of the 30,000 hospital cases in America are suffering from mental disorders, the Legion reports.
